### **DETAILED ACTION**

1. Claims 43-53 remain withdrawn from consideration as drawn to a non-elected invention.

### ***Claim Rejections - 35 USC § 103***

2. Claims 54-57 and 59-64 are rejected under 35 U.S.C. 103(a) as being unpatentable over Roden, US 5,970,477.

Roden discloses, e.g. Figs.1-6, a system for promotion of content over the Internet, e.g. 10, comprising a host computer station, e.g. super computer, a computer program module, e.g. 24. Roden does not disclose the term public access. However public access of a part of a description of content, e.g. an intellectual property item, has been common knowledge in the data processing art. Also, one may deem the access granted by the Roden system to comprise public access. To have provided such for Roden would have been obvious to one of ordinary skill in the art in view of such common knowledge.

It is noted that Applicant's claim language is replete with intended use claim language, e.g. for promotion. Such language is given little, if any, patentable weight in juxtaposition with positively recited claim language, e.g. a host computer station. Nonetheless, Roden's system is deemed to be able perform such intended use limitations recited in the claims. In short, Applicant has in broad scope and content claimed an Internet system comprising a host computer station and a computer program module adapted to carry out numerous intended use limitations.

Applicant's September 11, 2006 REMARKS have been reviewed, but are moot in light of the new grounds of rejection.

3. Further pertinent references of interest disclosing Applicant's invention of intellectual property, e.g. digital content, is noted on the attached PTO-892.

#### ***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
